October 23, 2014

## **OVERVIEW**

The following management discussion and analysis ("MD&A") is a review of the operations, current financial position and outlook for Megastar Development Corp. (the "Company") and should be read in conjunction with the Company's unaudited financial statements and the accompanying notes for the six months ended August 31, 2014, and the audited financial statements and the accompanying notes for the year ended February 28, 2014, copies of which are filed on the SEDAR website: [www.sedar.com](http://www.sedar.com).

The Company prepares its financial statements in accordance with International Financial Reporting Standards ("IFRS"). All dollar figures included herein and in the following discussion and analysis are quoted in Canadian dollars unless otherwise noted.

The financial information in this MD&A is derived from the Company's financial statements prepared in accordance with IFRS. This MD&A may contain forward looking statements based on assumptions and judgments of management regarding events or results that may prove to be inaccurate as a result of risk factors beyond its control. Actual results may differ materially from the expected results.

## **DESCRIPTION OF THE COMPANY'S BUSINESS**

The Company, incorporated in British Columbia on September 24, 1984, is an exploration stage public company listed on the TSX Venture Exchange ("TSX-V") and the Frankfurt Stock Exchange. The Company is assessing its mineral properties and has not yet determined whether these properties contain reserves that are economically recoverable. The recoverability of amounts shown for mineral properties is dependent upon the discovery of economically recoverable reserves and confirmation of the Company's interest in the underlying properties, the ability of the Company to obtain necessary financing to satisfy the expenditure requirements under mineral property agreements and to complete the development of the properties, and upon future profitable production or the sale thereof.

The Company is listed as a Tier 2 mining exploration issuer. The Company operates in a single business segment focusing on mineral exploration in Quebec and British Columbia, Canada. At August 31, 2014, the Company had no revenue producing operations and has an accumulated deficit of \$4,618,942 (February 28, 2014 - \$4,566,846) since its inception. However, the Company has sufficient cash resources to meet its obligations for at least twelve months from the end of the reporting year. The Company will periodically have to raise funds to continue operations and, although it has been successful in doing so in the past, there is no assurance it will be able to do so in the future.

The Company's future capital requirements will depend on many factors, including the costs of exploring and developing its mineral property, operating costs, the current market environment and global market conditions. At August 31, 2014 the Company had working capital of \$461,603 (February 28, 2014 - \$573,156). For significant expenditures and mineral property development, the Company will almost exclusively depend on outside capital. Such outside capital will include the issuance of additional equity shares. There can be no assurance that capital will be available, as necessary, to meet the Company's operating commitments and further exploration and development plans. The issuance of additional equity securities by the Company may result in

significant dilution to the equity interests of current shareholders. If the Company is unable to obtain financing in the amounts and on terms deemed acceptable, the further success of the business could be adversely affected.

The head office, and principal address of the Company is Suite 1128, 789 West Pender Street, Vancouver, British Columbia, Canada, V6C 1H2. The Company's registered and records address is at the corporate solicitor's office, McMillan LLP, Barristers and Solicitors, 1500 Royal Centre – 1055 West Georgia Street, Vancouver, British Columbia, V6E 4N7.

## **OVERALL PERFORMANCE**

### **MINERAL INTERESTS**

#### **RALLEAU property, Quevillon, Quebec:**

The Company has a 100% interest in the Ralleau property located within the Abitibi greenstone belt approximately 40 km east of Quévillon, Quebec. Previous mapping and sampling has identified anomalous Cu-Zn Volcanogenic Massive Sulphide (VMS) style mineralization and alteration on the property. Several untested airborne INPUT geophysical anomalies occur within felsic volcanic rocks from which anomalous base metal values have been returned in surface sampling. The Ralleau property currently comprises 139 contiguous mineral claims covering approximately 7,832 hectares.

From 2006 to 2010, the Company has completed the following exploration work in a number of successive programs:

- 75km of linecut grid
- ground magnetic and deep EM surveys
- 1,545.7 meters (5 holes) of diamond drilling
- trenching and channel sampling
- 1,457 line km of helicopter-borne VTEM Survey spaced at 75 meter intervals and which identified a total of forty-nine anomalies of which eight were classified as Priority One
- Preliminary ground-proofing of VTEM anomalies together with minor mapping and prospecting

On February 28, 2011 the Company announced receipt of a NI 43-101 compliant technical report summarizing the results of work to date on the Ralleau Project from MRB & Associates of Quebec. MRB's report recommends a two-phase \$1.75M exploration program consisting of further target delineation and definition followed by diamond drilling. The Company is assessing its options on the property and seeking joint venture opportunities.

During the year ended February 28, 2013, management had decided not to renew a small number of claims in outlying areas of the property, as such an impairment charge of \$44,091 was recorded due to the expiry of 16 out of the 220 claims.

An impairment charge of \$288,363 was recognized at February 28, 2014, representing certain non-core claims expected to expire during the fiscal year ending February 28, 2015. The expired claims and the claims under consideration to be allowed to lapse are considered non-essential claims, while preserving the most prospective core of the property.

**Megastar Development Corp.**  
MANAGEMENT'S DISCUSSION & ANALYSIS  
For the six months ended August 31, 2014

---

As of the report date, the Company is carrying out a program of geological mapping and sampling over the core claims at a budgeted cost of approximately \$100,000.

**SEDEX property**, northern British Columbia:

The Company has a 100% interest in 9 mineral claim units with a total area of 3,302 hectares situated in the Gataga-Akie SEDEX zinc/lead/silver district approximately 280 kilometers north-northwest of Mackenzie, British Columbia.

From 2007 to 2010, the Company completed the following exploration work under two successive options to other parties:

- Under an option agreement with Megastar in 2007, Mantle Resources operated a regional exploration program for SEDEX type lead-zinc deposits on all of the Megastar claims in conjunction with exploration on Mantle's adjacent property. This work included geochemical sampling, gravity surveying, prospecting and mapping and was successful in locating several exhalative horizons and other zones with anomalous zinc, lead, barium and/or silver geochemistry. The option agreement was terminated in May 2008.
- Under an option agreement with Megastar in 2010, Rio Grande Mining Corp. (Rio Grande) completed 1,199 line-kilometers of airborne magnetic survey.

The agreement with Rio Grande was further amended on January 19, 2012. Pursuant to the agreement, Rio Grande had to issue to the Company 200,000 post-split common shares (issued) and pay \$89,055 (\$64,055 paid), while reducing its liability to incur \$100,000 in exploration expenditures due on January 31, 2009 and \$200,000 due on July 31, 2010 to a total of \$500,000 in exploration expenditures by January 31, 2013 (not incurred). The Option Agreement with Rio Grande was terminated by mutual consent on July 19, 2012. Upon TSX-V approval, Rio Grande agreed to issue 250,000 treasury shares to the Company (outstanding) as compensation for all outstanding out of pocket expense amounting to \$25,000 in connection with keeping the property current and in good standing.

On September 30, 2011, the Company received \$10,000 from Goldeneye Resources Corp. (formerly "Barranco Resources Corp") as a non-refundable advance payment for granting a right of first refusal in connection with a possible option agreement for SEDEX property. Goldeneye Resources Corp. has chosen not to pursue an option interest in the SEDEX property.

On August 2, 2012, the Company entered into a letter of intent with Yuntone Capital Corp. ("Yuntone"). The Company granted an option to Yuntone to purchase up to an undivided 60% interest in Sedex claims. For Yuntone to earn a 60% interest in the Sedex claims, it had to pay to the Company cash of \$50,000 (received \$25,000 from Yuntone), issue 250,000 common shares, and incur \$500,000 in exploration expenditures. On October 9, 2012, the letter of intent was terminated by mutual consent and shall have no further force or effect. The Company returned the payment of \$25,000 to Yuntone on October 9, 2012.

The Company abandoned 8 mineral claims during the year ended February 29, 2012, and abandoned 16 mineral claims during the year ended February 28, 2013, leaving the Company with a 100% interest in 9 mineral claims, totaling 3,302 hectares. The property has been written down to a nominal carrying value of \$1 pursuant to the forfeiture of claims and management's assessment of impairment as at year ended February 28, 2013.

## **RESULTS OF OPERATIONS**

The Company had comprehensive loss of \$71,855 for the six months ended August 31, 2014 (2013 -\$135,948). The Company's expenses included the following:

- Accounting and audit fees of \$5,219 (2013 - \$8,826)
- Depreciation of \$166 (2013 - \$238)
- Insurance of \$3,575 (2013 - \$3,369)
- Legal fees of \$171 (2013 - \$1,290)
- Management fees of \$30,000 (2013 - \$30,000)
- Office, telephone, and miscellaneous of \$1,618 (2013 - \$1,737)
- Rent of \$6,000 (2013 - \$6,000)
- Shareholder information of \$587 (2013 - \$619)
- Transfer agent and filing fees of \$5,775 (2013 - \$4,697)
- Travel expenses of \$1,634 (2013 - \$1,635)

During the six months ended August 31, 2014, the Company had interest income of \$6,903 (2013 - \$7,370).

Accounting and audit fees of \$5,219 (2013 - \$8,826) decreased compared to the same period in the previous year due to cost cutting activities the Company has taken and the relative decrease of activities on the Company's operations and projects.

Legal fees of \$171 (2013 - \$1,290) relate to legal expenses in connection with legal advice and guidance for the operations of the Company and its compliance. There is a decrease compared to the same period in the previous year due to cost cutting activities the Company has taken and the relative decrease of activities on the Company's operations and projects.

Management fees of \$30,000 (2013 - \$30,000) consist of payments made to a CEO and CFO as discussed under the heading "Related Party Transactions".

Office and miscellaneous expenses of \$1,618 (2013 - \$1,737) related to expenses paid for administration and support.

Rental expenses of \$6,000 (2013 - \$6,000) are expenses paid for the Company's occupancy.

Transfer agent and filing fees of \$5,775 (2013 - \$4,697) relates to expenditures in connection with share capital activities of the Company. There is an increase in transfer agent fees over the same period in the previous year from a late filing penalty of \$2,400 in the current year.

Travel expenses of \$1,634 (2013 - \$1,635) related to maintaining the current projects, investigating new projects and promoting the Company.

**SUMMARY OF QUARTERLY FINANCIAL RESULTS**

The Company's operating results from the last eight quarters are summarized as follows:

	<i>Three months ended</i>			
	August 31, 2014	May 31, 2014	February 28, 2014	November 30, 2013
Total comprehensive loss	(36,695)	(33,717)	(326,303)	(39,210)
Loss per share	(0.001)	(0.001)	(0.001)	(0.001)

	<i>Three months ended</i>			
	August 31, 2013	May 31, 2013	February 28, 2013	November 30, 2012
Total comprehensive loss	(96,695)	(25,817)	(148,238)	(83,947)
Loss per share	(0.004)	(0.001)	(0.010)	(0.002)

The increased net loss in the quarter ended February 28, 2013 compared with the quarter ended November 30, 2012 was primarily due to share-based payment expenses of \$43,350 and impairment charge of \$89,447 occurred in the quarter ended February 28, 2013.

The decreased net loss in the quarter ended May 31, 2013 compared with the quarter ended February 28, 2013 was primarily due to decreased accounting and audit fees of \$16,100, share-based payment expense of \$43,350, impairment of marketable securities of \$122,575 and impairment on exploration and evaluation assets of \$55,083 occurred in the quarter ended February 28, 2013.

The increased net loss in the quarter ended August 31, 2013 compared with the quarter ended May 31, 2013 was primarily due to accrued interest expenses related to flow-through liability in the quarter ended August 31, 2013.

The decreased net loss in the quarter ended November 30, 2013 compared with the quarter ended August 31, 2013 was primarily due to accrued interest expenses related to flow-through liability in the quarter ended August 31, 2013.

The decreased net loss in the quarter ended February 28, 2014 compared with the quarter ended November 30, 2013 was primarily due to impairment on exploration and evaluation assets of \$ 288,363, and accrued audit and accounting fees occurred in the quarter ended February 28, 2014.

The decreased net loss in the quarter ended May 31, 2014 compared with the quarter ended February 28, 2014 was primarily due to impairment on exploration and evaluation assets of \$ 288,363, and accrued audit and accounting fees incurred in the quarter ended February 28, 2014.

The increase net loss in the quarter ended August 31, 2014 compared with the quarter ended May 31, 2014 was primarily due to transfer agent and filing fees of \$1,679, and travel expenses of \$1,634 incurred in the quarter ended August 31, 2014. There is a decrease in transfer agent fees over the quarter ended May 31, 2014 of a late filing penalty of \$2,400. Overall, there is no significant change in net loss between the two quarters.

## **LIQUIDITY AND CAPITAL RESOURCES**

As of August 31, 2014, the Company had net working capital of \$461,603 (February 28, 2014 – \$573,156) and cash and cash equivalents of \$965,000 (February 28, 2014 - \$1,042,037). The Company anticipates that it will require significant funds for property exploration and to support general administrative expenses.

### Six months ended August 31, 2014:

#### Cash Flow Activities:

Cash balances decreased by \$77,037 during the six months ended August 31, 2014 and decreased by \$63,915 during the six months ended August 31, 2013.

During the six months ended August 31, 2014, cash used in operating activities was \$64,831 compared to cash used in operating activities of \$67,395 during the six months ended August 31, 2013. The decrease in cash used in operating activities is primarily attributed to a late filing penalty payment of \$2,400.

Cash used in investing activities during the six months ended August 31, 2014 was \$12,206 compared with cash provided by investing activities of \$3,480 during the six months ended August 31, 2013. The difference is primarily attributed to the interest received from term deposit and the increased in evaluation and exploration expenditures incurred during the six months ended August 31, 2014.

### Year ended February 28, 2014:

On May 3, 2013, the Company received approval from TSX-V to extend the terms of certain warrants previously issued. The private placements, which these warrants relate to, closed on July 20, 2011 and June 1, 2012, respectively. These warrants initially had expiry dates of July 20, 2013 and June 1, 2014 and were extended for a period of two years and now expire on July 20, 2015 and June 1, 2016 respectively. All other terms of the warrants remain the same.

#### Cash Flow Activities:

Cash balances decreased by \$128,579 during the year ended February 28, 2014 and increased by \$780,858 during the year ended February 28, 2013.

During the year ended February 28, 2014, cash used in operating activities was \$130,099 compared to cash used in operating activities of \$272,928 during the year ended February 28, 2013. The decrease in cash used in operating activities is primarily attributed to the lower expenditures on professional fees and management fees, and management's efforts to conserve cash and incur only necessary compliance and operational expenses.

Cash provided by investing activities during the year ended February 28, 2014 was \$1,520 compared with cash used investing activities of \$8,036 during the year ended February 28, 2013. The difference is primarily attributed to the interest received from term deposit and the decreased in evaluation and exploration expenditures.

Cash provided from financing activities during the year ended February 28, 2014 was \$Nil, compared with cash provided by financing activities of \$1,045,750 during the year ended February 28, 2013. The difference was a result of the share subscriptions received from private placement during the year ended February 28, 2013.

As the Company is an exploration company, it does not receive nor does it anticipate receiving any revenue in the current and next fiscal year. The Company's interests do not currently generate cash flow from operations

**Megastar Development Corp.**  
**MANAGEMENT'S DISCUSSION & ANALYSIS**  
For the six months ended August 31, 2014

and, in order to continue operations and fund its expenditure commitments, it is dependent on equity financing through existing and new shareholders, third party financing, and cost sharing arrangements to fund its work programs and operations.

**OUTSTANDING SHARES**

**Outstanding Share Data**

As at August 31, 2014, there were 28,996,716 common shares, 1,050,000 share options, and 17,602,765 warrants outstanding.

	Number of shares	Share capital
Balance, February 29, 2012	17,796,716	\$ 4,133,551
Shares issued for private placement	11,000,000	1,100,000
Share options exercised	200,000	20,000
Fair value of options exercised	-	14,450
Shares issuance cost (agent's warrants)	-	(52,573)
Shares issuance cost	-	(74,250)
Balance, February 28, 2013, 2014 and August 31, 2014	28,996,716	\$ 5,141,178

As of the date this report, the Company had the following outstanding:

- 28,996,716 common shares
- 17,602,765 warrants
- 1,050,000 share options

**OFF-BALANCE SHEET ARRANGEMENTS**

The Company has no off-balance sheet arrangements as at August 31, 2014 or as of the date of this report.

**TRANSACTIONS WITH RELATED PARTIES**

The amounts due to/from related parties are amounts due to the directors and officers. The balances are unsecured, non-interest bearing and have no specific terms for repayment. These transactions are in the normal course of operations and have been valued in these financial statements at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

Due to Related Parties	August 31, 2014	February 28, 2014
	- \$ -	- \$ -
Dusan Berka, CEO and President	107	-
Zara Kanji & Associates (Company controlled by CFO)	2,500	5,000
Chris Staagaard, Director	6,000	6,000
Directors (former)	2,850	2,850
	11,457	13,850

**Megastar Development Corp.**  
**MANAGEMENT'S DISCUSSION & ANALYSIS**  
For the six months ended August 31, 2014

During the six months ended August 31, 2014 and 2013, the Company entered into the following transactions with related parties:

	Six months ended	
	August 31, 2014	August 31, 2013
Expenses paid or accrued to directors of the Company, senior officers and companies with common directors and a former directors:		
Management and directors fees	\$ 30,000	\$ 30,000
Professional fees	3,529	2,701
	\$ 33,529	\$ 32,701

Management compensation consisted of the following:

	Six months ended	
	August 31, 2014	August 31, 2013
	- \$ -	- \$ -
Duster Capital Corp. (Company controlled by CEO)	18,000	18,000
Zara Kanji & Associates (Company controlled by CFO)	12,000	12,000
	30,000	30,000

**CRITICAL ACCOUNTING ESTIMATES**

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In the future, actual experience may differ from these estimates and assumptions. The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income in the year of the change, if the change affects that year only, or in the year of the change and future years, if the change affects both.

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below:

i) Exploration and Evaluation Expenditures

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in the profit or loss in the year the new information becomes available.

ii) Title to Mineral Property Interests

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

iii) Income Taxes

The Company has not recognized a deferred tax asset, as management believes it is not probable that taxable profit will be available against which deductible temporary differences can be utilized.

iv) Flow Through Shares Provisions

Flow-through share provisions are comprised of the Company's various tax penalties and indemnification liabilities relating to the deficiencies in incurring on a timely basis the appropriate amount of qualifying exploration expenditures required related to past flow-through share issuances. The Company may also be required to indemnify the holders of such shares for any tax and other costs payable by them in the event the Company has not made required exploration expenditures.

Flow-through share provisions have been created based on the Company's internal estimates of the maximum tax penalties and indemnification liabilities the Company could be subject to. Assumptions, based on the current tax regulations, have been made which management believes are a reasonable basis upon which to estimate the future potential liability. These estimates take into account any material changes to the assumptions that occur when reviewed regularly by management. The final cost of the flow-through share provision may be lower than currently provided for.

v) Share-based Payment Transactions

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the stock option, volatility and dividend yield and making assumptions about them.

For a detailed summary of the Company's significant accounting policies, the readers are directed to Note 3 of the Notes to the unaudited financial statements for the three months ended May 31, 2014 that are available on SEDAR at [www.sedar.com](http://www.sedar.com).

## **RISKS AND UNCERTAINTIES**

The Company believes that the following risks and uncertainties may materially affect its success.

### **Limited Operating History**

The Company has no history of business or mining operations, revenue generation or production history. The Company was incorporated on September 24, 1984 and has yet to generate a profit from its activities. The Company is subject to all of the business risks and uncertainties associated with any new business enterprise,

including the risk that it will not achieve its growth objective. The Company anticipates that it may take several years to achieve positive cash flow from operations.

### **Exploration, Development and Operating Risks**

The exploration for and development of minerals involves significant risks, which even a combination of careful evaluation, experience and knowledge may not eliminate. Few properties that are explored are ultimately developed into producing mines. There can be no guarantee that the estimates of quantities and qualities of minerals disclosed will be economically recoverable. With all mining operations there is uncertainty and, therefore, risk associated with operating parameters and costs resulting from the scaling up of extraction methods tested in pilot conditions. Mineral exploration is speculative in nature and there can be no assurance that any minerals discovered would result in an increase in the Company's resource base.

The Company's operations are subject to all of the hazards and risks normally encountered in the exploration, development and production of minerals. These include unusual and unexpected geological formations, rock falls, seismic activity; flooding and other conditions involved in the extraction of material, any of which could result in damage to, or destruction of, mines and other producing facilities, damage to life or property, environmental damage and possible legal liability. Although precautions to minimize risk will be taken, operations are subject to hazards that may result in environmental pollution and consequent liability that could have a material adverse impact on the business, operations and financial performance of the Company.

### **Fluctuating Mineral Prices**

The economics of mineral exploration is affected by many factors beyond the Company's control, including commodity prices, the cost of operations, variations in the grade of minerals explored and fluctuations in the market price of minerals. Depending on the price of minerals, it may be determined that it is impractical to continue the mineral exploration operation.

Mineral prices are prone to fluctuations and the marketability of minerals is affected by government regulation relating to price, royalties, allowable production and the importing and exporting of minerals, the effect of which cannot be accurately predicted. There is no assurance that a profitable market will exist for the sale of any minerals found on the Property.

### **Substantial Capital Requirements and Liquidity**

Substantial additional funds for the establishment of the Company's current and planned mining operations will be required. No assurances can be given that the Company will be able to raise the additional funding that may be required for such activities, should such funding not be fully generated from operations. Mineral prices, environmental rehabilitation or restitution, revenues, taxes, transportation costs, capital expenditures, operating expenses and geological results are all factors which will have an impact on the amount of additional capital that may be required. To meet such funding requirements, the Company may be required to undertake additional equity financing, which would be dilutive to shareholders. Debt financing, if available, may also involve restrictions on financing and operating activities. There is no assurance that additional financing will be available on terms acceptable to the Company or at all. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations or anticipated expansion, and pursue only those development plans that can be funded through cash flows generated from its existing operations.

### **Regulatory Requirements**

The current or future operations of the Company require permits from various governmental authorities, and such operations are and will be governed by laws and regulations governing exploration, development, production, taxes, labour standards, occupational health, waste disposal, toxic substances, land use, environmental protection, site safety and other matters. Companies engaged in the exploration and development of mineral properties generally experience increased costs and delays in development and other schedules as a result of the need to comply with applicable laws, regulations and permits. There can be no assurance that all permits which the Company may require for the facilities and conduct of exploration and development operations will be obtainable on reasonable terms or that such laws and regulation would not have an adverse effect on any exploration and development project which the Company might undertake.

Failure to comply with applicable laws, regulations and permitting requirements may result in enforcement actions, including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment or remedial actions. Parties engaged in exploration and development operations may be required to compensate those suffering loss or damage by reason of the exploration and development activities and may have civil or criminal fines or penalties imposed upon them for violation of applicable laws or regulations. Amendments to current laws, regulation and permits governing operations and activities of mineral companies, or more stringent implementation thereof, could have a material adverse impact on the Company and cause increases in capital expenditures or exploration and development costs or require abandonment or delays in the development of new properties.

### **Financing Risks and Dilution to Shareholders**

The Company will have limited financial resources, no operations and no revenues. If the Company's exploration program on its properties is successful, additional funds will be required for the purposes of further exploration and development. There can be no assurance that the Company will be able to obtain adequate financing in the future or that such financing will be available on favourable terms or at all. It is likely such additional capital will be raised through the issuance of additional equity, which will result in dilution to the Company's shareholders.

### **Title to Properties**

Acquisition of title to mineral properties is a very detailed and time-consuming process. Title to, and the area of, mineral properties may be disputed. The Company cannot give an assurance that title to the Property will not be challenged or impugned. Mineral properties sometimes contain claims or transfer histories that examiners cannot verify. A successful claim that the Company, as the case may be, does not have title to the properties could cause the Company to lose any rights to explore, develop and mine any minerals on that property, without compensation for its prior expenditures relating to such property.

### **Requirement for Permits and Licenses**

As the Company holds properties subject to the NSR and it and may need to acquire further permits or licenses necessary to carry on proposed exploration activities on the properties. A substantial number of permits and licenses may be required should the Company proceed beyond exploration; such licenses and permits may be difficult to obtain and may be subject to changes in regulations and in various operational circumstances. It is uncertain whether the Company will be able to obtain all such licenses and permits.

### **Competition**

There is competition within the mining industry for the discovery and acquisition of properties considered to have commercial potential. The Company will compete with other mining companies, many of which have greater financial, technical and other resources than the Company, for, among other things, the acquisition of minerals claims, leases and other mineral interests as well as for the recruitment and retention of qualified employees and other personnel.

### **Reliance on Management and Dependence on Key Personnel**

The success of the Company will be largely dependent upon on the performance of the directors and officers and the ability to attract and retain key personnel. The loss of the services of these persons may have a material adverse effect on the Company's business and prospects. The Company will compete with numerous other companies for the recruitment and retention of qualified employees and contractors. There is no assurance that the Company can maintain the service of its directors and officers or other qualified personnel required to operate its business. Failure to do so could have a material adverse effect on the Company and its prospects.

### **No Mineral Reserves or Mineral Resources**

The properties in which the Company holds an interest is considered to be an early exploration stage property, however no mineral reserve or mineral resource estimates have been prepared in respect of the properties. Mineral reserves are, in the large part, estimates and no assurance can be given that the anticipated tonnages and grades will be achieved or that the indicated level of recovery will be realized. Reserve estimates for properties that have not yet commenced production may require revision based on actual production experience. Market price fluctuations of metals, as well as increased production costs or reduced recovery rates, may render mineral reserves containing relatively lower grades of mineralization uneconomic and may ultimately result in a restatement of reserves. Moreover, short-term operating factors relating to the mineral reserves, such as the need for orderly development of the ore bodies and the processing of new or different mineral grades may cause a mining operation to be unprofitable in any particular accounting period.

### **Environmental Risks**

The Company's exploration and appraisal programs will, in general, be subject to approval by regulatory bodies. Additionally, all phases of the mining business present environmental risks and hazards and are subject to environmental regulation pursuant to a variety of international conventions and federal, provincial and municipal laws and regulations. Environmental legislation provides for, among other things, restrictions and prohibitions on spills, releases or emissions of various substances produced in association with mining operations. The legislation also requires that wells and facility sites be operated, maintained, abandoned and reclaimed to the satisfaction of applicable regulatory authorities. Compliance with such legislation can require significant expenditures and a breach may result in the imposition of fines and penalties, some of which may be material. Environmental legislation is evolving in a manner expected to result in stricter standards and enforcement, larger fines and liability and potentially increased capital expenditures and operating costs.

### **Governmental Regulations and Processing Licenses and Permits**

The activities of the Company are subject to Canadian and provincial approvals, various laws governing prospecting, development, land resumptions, production taxes, labour standards and occupational health, mine safety, toxic substances and other matters. Although the Company believes that its activities are currently

carried out in accordance with all applicable rules and regulations, no assurance can be given that new rules and regulations will not be enacted or that existing rules and regulations will not be applied in a manner, which could limit or curtail production or development. Amendments to current laws and regulations governing operations and activities of exploration and mining, or more stringent implementation thereof, could have a material adverse impact on the business, operations and financial performance of the Company. Further, the mining licenses and permits issued in respect of its projects may be subject to conditions which, if not satisfied, may lead to the revocation of such licenses. In the event of revocation, the value of the Company's investments in such projects may decline.

### **Local Resident Concerns**

Apart from ordinary environmental issues, work on, or the development and mining of the properties could be subject to resistance from local residents that could either prevent or delay exploration and development of the properties.

### **Conflicts of Interest**

Certain of the directors and officers of the Company will be engaged in, and will continue to engage in, other business activities on their own behalf and on behalf of other companies (including mineral resource companies) and, as a result of these and other activities, such directors and officers of the Company may become subject to conflicts of interest. The British Columbia Business Corporations Act ("BCBCA") provides that in the event that a director has a material interest in a contract or proposed contract or agreement that is material to the issuer, the director must disclose his interest in such contract or agreement and refrain from voting on any matter in respect of such contract or agreement, subject to and in accordance with the BCBCA. To the extent that conflicts of interest arise, such conflicts will be resolved in accordance with the provisions of the BCBCA.

### **Uninsurable Risks**

Exploration, development and production operations on mineral properties involve numerous risks, including unexpected or unusual geological operating conditions, rock bursts, cave-ins, fires, floods, earthquakes and other environmental occurrences. It is not always possible to obtain insurance against all such risks and the Company may decide not to insure against certain risks as a result of high premiums or other reasons. Should such liabilities arise, they could have an adverse impact on the Company's results of operations and financial condition and could cause a decline in the value of the Company shares. The Company does not intend to maintain insurance against environmental risks.

### **Litigation**

The Company and/or its directors may be subject to a variety of civil or other legal proceedings, with or without merit.

## **FORWARD-LOOKING STATEMENTS**

This MD&A contains forward-looking statements. Forward-looking statements are projections of events, revenues, income, future economic performance or management's plans and objectives for future operations. In some cases, you can identify forward-looking statements by the use of terminology such as "may", "should", "expects", "plans", "anticipates", "believes", "estimates", "predicts", "potential" or "continue" or the negative of these terms or other comparable terminology. Examples of forward-looking statements made in this MD&A

include statements about the Company's business plans; the costs and timing of its developments; its future investments and allocation of capital resources; success of exploration activities; requirements for additional capital; government regulation of mining operations. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including: general economic and business conditions, fluctuations in worldwide prices and demand for minerals; our lack of operating history; the actual results of current exploration activities; conclusions or economic evaluations; changes in project parameters as plans continue to be refined; possible variations in grade and or recovery rates; failure of plant, equipment or processes to operate as anticipated; accidents, labour disputes or other risks of the mining industry; delays in obtaining government approvals or financing or incompleteness of development or construction activities, any of which may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

While these forward-looking statements and any assumptions upon which they are based are made in good faith and reflect our current judgment regarding the direction of the Company's business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumptions or other future performance suggested herein. Except as required by applicable law, including the securities laws of the Canada, the Company does not intend to update any of the forward-looking statements to conform these statements to actual results.

#### **ADDITIONAL DISCLOSURE FOR VENTURE ISSUERS**

A detailed breakdown of exploration and general and administrative expenses is provided in the financial statements for the six months ended August 31, 2014.

#### **MANAGEMENT'S REPORT ON INTERNAL CONTROLS OVER FINANCIAL REPORTING**

In connection with Exemption Orders issued in November 2007 by each of the securities commissions across Canada, the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") of the Company will file a Venture Issuer Basic Certificate with respect to the financial information contained in the unaudited interim financial statements and the audited annual financial statements and respective accompanying MD&A.

In contrast to the certificate under National Instrument ("NI") 52-109 (Certification of Disclosure in Issuer's Annual and Interim Filings), the Venture Issuer Basic Certification includes a 'Note to Reader' stating that the CEO and CFO do not make any representations relating to the establishment and maintenance of disclosure controls and procedures and internal control over financing reporting, as defined in NI 52-109.

## **CHANGES IN ACCOUNTING POLICIES INCLUDING INITIAL ADOPTION**

### **New Accounting Standards Adopted**

The Company has adopted the following accounting standards effective May 1, 2013. The adoption of these accounting standards had no significant impact on the financial statements. These standards are:

- IAS 1 (Amendment): This standard is amended to change the disclosure of items presented in OCI, including a requirement to separate items presented in OCI into two groups based on whether or not they may be recycled to profit or loss in the future.
- IFRS 7 (Amendment): This standard is amended to enhance disclosure requirements related to offsetting of financial assets and financial liabilities.
- IFRS 10: New standard to establish principles for the presentation and preparation of consolidated financial statements.
- IFRS 11: New standard to account for the rights and obligations in accordance with a joint agreement.
- IFRS 12: New standard for the disclosure of interest in other entities not within the scope of IFRS 9 / IAS 39.
- IFRS 13: New standard on the measurement and disclosure of fair value.
- IAS 27 (Amendment): As a result of the issue of IFRS 10, IFRS 11 and IFRS 12. IAS 27 deals solely with separate financial statements.
- IAS 28 (Amendment): New standard issued that supersedes IAS 28 (2003) to prescribe the application of the equity method to investments in associates and joint ventures.

### **New Accounting Standards, Amendments and Interpretations Not Yet Effective**

Certain new standards, interpretations and amendments to existing standards have been issued by the IASB or the International Financial Reporting Interpretations Committee ("IFRIC") beginning after January 1, 2014 or later years. None of these are expected to have a significant effect on the financial statements. Some updates that are not applicable or are not consequential to the Company may have been excluded from the list below.

- IAS 32 (Amendment): Standard amended to clarify requirements for offsetting financial assets and financial liabilities, effective for annual periods beginning on or after January 1, 2014.
- IFRS 7: Amended to require additional disclosures on transition from IAS 39 and IFRS 9, effective for annual periods beginning on or after January 1, 2015.
- IFRS 9: New standard that replaced IAS 39 for classification and measurement, effective for annual periods beginning on or after January 1, 2018.

The Company does not expect that the new and amended standards will have significant impact on its financial statements.

## **FINANCIAL AND OTHER INSTRUMENTS**

The Company classifies its financial instruments in the following categories: at fair value through profit or loss, loans and receivables, held-to-maturity investments, available-for-sale and financial liabilities. The classification depends on the purpose for which the financial instruments were acquired. Management determines the classification of its financial instruments at initial recognition.

Financial assets are classified at fair value through profit or loss when they are either held for trading for the purpose of short-term profit taking, derivatives not held for hedging purposes, or when they are designated as

---

such to avoid an accounting mismatch or to enable performance evaluation where a Company of financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Such assets are subsequently measured at fair value with changes in carrying value being included in profit or loss.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortized cost. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period. These are classified as non-current assets.

Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the Company's intention to hold these investments to maturity. They are subsequently measured at amortized cost. Held-to-maturity investments are included in non-current assets, except for those, which are expected to mature within 12 months after the end of the reporting period.

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or are not suitable to be classified as financial assets at fair value through profit or loss, loans and receivables or held-to-maturity investments and are subsequently measured at fair value. These are included in current assets. Unrealized gains and losses are recognized in other comprehensive income, except for impairment losses and foreign exchange gains and losses.

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortized cost.

Regular purchases and sales of financial assets are recognized on the trade-date – the date on which the Company commits to purchase the asset.

Financial assets are derecognized when the rights to receive cash flows from the investments have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership.

At each reporting date, the Company assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a significant and prolonged decline in the value of the instrument is considered to determine whether impairment has arisen.

The Company does not have any derivative financial assets and liabilities.

## **OTHER MATTERS**

### **Legal proceedings**

The Company is not aware of any legal proceedings.

### **Contingent liabilities**

At the date of report, management was unaware of any outstanding contingent liability relating to the Company's activities.

### **Management Commitment**

As at August 31, 2014, the Company has consulting and management agreements that can be terminated by the Company by giving 30 days notice. The aggregate amount of these agreements is \$5,000 monthly.

**Megastar Development Corp.**  
MANAGEMENT'S DISCUSSION & ANALYSIS  
For the six months ended August 31, 2014

---

The Company entered into a revised management agreement with a company controlled by the CEO of the Company dated April 23, 2013. The management agreement with the company controlled by the CEO contains a 30 days termination clause.

The Company entered into a revised management agreement with a company controlled by the CFO of the Company dated April 23, 2013. The management agreement with the company controlled by the CFO contains a 30 days termination clause.

**Flow-through Shares Subscription Commitment**

The Company is in arrears on filing certain of its statutory tax forms. The Company has exposure to late filing penalties and related interest, amounting to \$145,903. The Company may also be required to indemnify flow-through investors for the amount of increased tax payable by the flow-through investor as a consequence of the failure of the Company to incur qualifying exploration expenditures previously renounced to the flow-through investors. Previously renounced and unspent exploration amounts of \$335,466 relating to the 2006 flow-through shares offering may be subject to such indemnification. The Company estimates that the total potential liability is \$241,677 as at August 31, 2014 and has included a provision for this amount together with the interest and penalty accruals in other liabilities. As at August 31, 2014, the total amount of \$522,066 included within other liabilities includes taxes payable of \$85,042, penalties of \$100,824, shareholder indemnity liability of \$190,297, and total interest of \$145,903. The outcome of the amount of actual claims, if any, is contingent on future assessments to the investors. During the six months ended August 31, 2014, the Company recognized interest expenses of \$22,570 related to flow-through share obligations.

**PROPOSED TRANSACTIONS**

The Company had no proposed transactions.

**ADDITIONAL DISCLOSURE FOR VENTURE ISSUERS WITHOUT SIGNIFICANT REVENUE**

Detailed listings of general and administrative expenses and exploration expenditures are provided in the financial statements of the Company for the six months ended August 31, 2014.

**DIRECTORS**

Certain directors of the Company are also directors, officers and/or shareholders of other companies that are similarly engaged in the business of acquiring, developing and exploring natural resource properties. Such associations may give rise to conflicts of interest from time to time. The directors of the Company are required to act in good faith with a view to the best interests of the Company and to disclose any interest they may have in any project opportunity of the Company. If a conflict of interest arises at a meeting of the board of directors, any director in a conflict will disclose his/her interest and abstain from voting in the matter(s). In determining whether or not the Company will participate in any project or opportunity, the directors will primarily consider the degree of risk to which the Company may be exposed and its financial position at the time.

**OUTLOOK**

The Company's primary focus for the foreseeable future will be on reviewing its financial position, continuing exploration and development activities on its mineral properties, and the Company's ongoing evaluation of possible projects.

**OTHER REQUIREMENTS**

Additional disclosure of the Company's material documents, information circular, material change reports, new release, and other information can be obtained on SEDAR at [www.sedar.com](http://www.sedar.com).

**APPROVAL**

The board of Directors of the Company has approved the disclosure contained in this Management Discussion and Analysis. A copy will be provided to anyone who requests it.

On Behalf of the Board of Directors,

*"Dusan Berka"*
