TSX-V: **MDV** Frankfurt: **M5QN**

## **Megastar to Purchase a 100% Interest in Cerro Minas Property, Mexico** *-purchase expands land holdings within the Megastar's Yautepec project*

**Vancouver, BC, Canada, October 16, 2019 – Megastar Development Corp. (“Megastar”, or the “Company”)** (TSX-V: **MDV**; Frankfurt: **M5QN**) is pleased to announce that it has entered into an option agreement (the “Agreement”) with Gunpoint Exploration Ltd. (“Gunpoint”) and Gunpoint’s subsidiary, Minera CJ Gold S.A. de C.V. (“CJ Gold”), whereas Megastar, through its wholly-owned subsidiary, Minera Mazateca, S.A. de C.V. (“Mazateca”), may acquire a 100% interest in the Cerro Minas mineral concession (title # 234333) having a surface area of 899 hectares, located in the state of Oaxaca, Mexico (the “Property”).

“Given the exciting results we have announced to date from our Yautepec property, the addition of this land is very compelling for us,” said David M. Jones, exploration manager and director of Megastar Development.

“Completely surrounded by our current land holdings, Cerro Minas displays similar epithermal characteristics to targets that we have already identified and, given our early-staged success, adding this land is a natural as we look to enlarge our foot-print in, what we believe, is a very prospective area.”

The Cerro Minas Property lies within the Oaxaca epithermal Au-Ag belt, approximately 130 kilometers southeast of Oaxaca City, and 30 kilometers southeast of Gold Resource Corporation’s (NYSE American: **GORO**) operating Arista-Switchback mine (Au-Ag-Cu-Pb-Zn). The Property is an inlier to Megastar’s principal Yautepec Project concession, and covers 5 kilometers strike length of highly prospective ground along a northwest trending caldera structural margin as reported in prior Megastar news releases (see July 16<sup>th</sup> and August 22<sup>nd</sup>, 2019). In addition, the Property contains polymetallic skarn-style mineralization (Ag-Au-Cu-Pb-Zn) that is the subject of historical reports by the Mexican Consejo de Recursos Minerales which document small-scale artisanal mining. With this agreement, Megastar has consolidated over **7 kilometers** strike length of high potential targets for epithermal and skarn mineralization.

### **Terms of Agreement**

1. Under the terms of the Agreement, the Company may earn a 100% interest in the Property by paying Gunpoint US\$100,000 and issuing 800,000 common shares (the “**Shares**”) as follows:

- (i) US\$10,000 and 100,000 Shares on the Effective Date;
- (ii) US\$20,000 and 150,000 Shares on the first anniversary of the Effective Date;
- (iii) US\$30,000 and 250,000 Shares on the second anniversary of the Effective Date; and
- (iv) US\$40,000 and 300,000 Shares on the third anniversary of the Effective Date.

Gunpoint shall retain a 1.5% Net Smelter Returns Royalty on the Property, of which the Company may purchase, at any time, 0.5% for US\$1,000,000.

The Agreement is subject to the approval of the TSX Venture Exchange and Gunpoint satisfying certain conditions, specifically: (a) Gunpoint having delivered to Megastar (and to Mazateca) all reports and other filings regarding the Property which were required to be filed by CJ Gold under applicable laws (including, notably, the *Ley Minera* and the regulations adopted thereunder), and (b) having paid all outstanding fees and having provided written evidence of same to Megastar (and to Mazateca).

All shares issued pursuant to the Agreement will be subject to a hold period of four months and one day following issuance.

#### ABOUT MEGASTAR DEVELOPMENT CORP.

Megastar Development Corp. is an emerging resource company engaged in the evaluation, acquisition and exploration of mineral properties in Mexico and Canada. Megastar has an option to acquire 100% interest in three epithermal Au-Ag mineral properties in Oaxaca, Mexico. Megastar also owns 100% interest in the **Ralleau**, VMS/lode gold mineral property in Urban Barry District, Lebel-sur-Quévillon area of Quebec, currently under 50% option to DeepRock Minerals Inc. (CSE: **DEEP**).
